

# EPIC Coin Pre-mine Distribution

On 28th September 2018, the Epic Project pre-mined a total of 5,317,700 EPIC coins in preparation for our upcoming coin swap. These coins were broken down into the following amounts:

Coin Swap:

1. **Personal Wallets**—3,370,000 EPIC coins to cover personal wallet amounts sent in.
2. **Crypto-Bridge**—447,000 EPIC coins to swap all of the EPIC coins held on the exchange.
3. **The Epic Project Development Fund**—1,500,000 EPIC coins, 3% of the Max Supply.

**The new Epic Project Development Fund will be used strictly for future developments and marketing of the Epic Project.**

The Epic CEO and Project Manager will broadcast all transactions carried out within the dedicated Pre-mine Wallet in `#dev-fund-reports` channel within our Discord server.

Any funds that are to be used from the Epic Project Development Fund will need the approval of both the Epic Coin CEO and Epic Project Manager. For large transactions of EPIC coins from the Epic Project Development Fund there will be an Epic Core Team vote and the majority of votes will be tallied. The final outcome will be defined from the tallied votes.

Every transaction from the Epic Project Development Fund will be clearly explained to our community and investors. We will post 1) who/what the payment is for, 2) the amount of the payment, and 3) the TX ID in the `#dev-fund-reports` via our Discord channel.
